

MOHANED HASSAN

Senior GIS Specialist | GIS Team Lead | Geospatial Solutions

M.Sc. Geoinformatics | B.A. (Hons) Survey Engineering | PMP® | MIET

Riyadh, Saudi Arabia • +966 508446873 • sdmohaned@hotmail.com • linkedin.com/in/mohanedhassan-792130b8

PROFESSIONAL SUMMARY

Senior GIS professional with 10+ years leading geospatial teams and GIS delivery across Saudi Arabia, the Middle East, and Africa. Has built and led GIS teams of up to 33 members, coordinated multi-stakeholder programs, and applied spatial analysis to electric utility networks, municipal services, retail, and infrastructure projects. Strong hands-on skills in ArcGIS Pro, ArcGIS Online, QGIS, FME, and Python automation, backed by PMP project management and a record of delivering GIS strategy, spatial analytics, and dashboards that support decision-making.

CORE COMPETENCIES

GIS Strategy & Planning • GIS Team Leadership & Training • Spatial Data Analytics & QA/QC • ArcGIS Pro, ArcGIS Online • QGIS • FME & Spatial ETL / Data Integration • Python & ArcPy Geoprocessing Automation • SQL & Geodatabase Design • ArcGIS Dashboards & Experience Builder • Cartographic Design • Remote Sensing & Deep Learning (ArcGIS) • Stakeholder & Vendor Management • Project Management (PMP®)

PROFESSIONAL EXPERIENCE

Senior GIS Specialist

Aug 2025 – Present

GCLA Projects — Riyadh, Saudi Arabia

- **Municipality GIS program (embedded on-site):** lead GIS delivery working directly out of the municipality's offices, supporting municipal operations and KPI monitoring across 20+ spatial and tabular datasets.
- Administer ArcGIS Online environments including web maps, hosted feature layers, and group sharing policies for multiple municipal stakeholder groups.
- Build interactive ArcGIS Dashboards and Experience Builder applications delivering real-time spatial KPIs and service-delivery analytics to decision-makers.
- Design spatial data models and geodatabases, run QA/QC processes, and deliver technical training and support to municipal GIS teams.
- Produce high-quality cartographic and thematic map outputs visualizing urban, infrastructure, and service-delivery indicators.

Senior GIS Analyst / GIS Team Lead

Oct 2023 – Aug 2025

Engineering & Research International (ERI) — Riyadh, Saudi Arabia

- **Western Region electricity network GIS project:** led geospatial delivery for a regional electric utility program covering network data capture, validation, and analysis.
- Acted as primary point of contact coordinating 3 delivery contacts across two major GIS partner firms in India, ensuring aligned cross-border project execution.
- Directed a 33-member GIS production team on large-scale data programs, driving throughput, quality standards, and professional development.
- Developed and executed enterprise GIS strategy that increased spatial data accessibility by 40% across the organization.
- Supervised collection, organization, and validation of spatial data, and oversaw selection, deployment, and maintenance of GIS software and infrastructure.
- Conducted advanced spatial analyses, managed vendor contracts and budgets, and enforced compliance with data-security standards.

GIS Instructor (Part Time)

Aug 2022 – Oct 2023

The Future University — Khartoum, Sudan (concurrent with DAL Group role)

- Developed GIS curriculum and taught core concepts, ArcGIS and QGIS tooling, and applied workflows through lectures, labs, and hands-on training.
- Supervised student projects and fieldwork, evaluated performance, and managed GIS lab software and equipment.

Senior GIS Specialist — Geomarketing

Jun 2021 – Oct 2023

DAL Group — Khartoum, Sudan

- Led and mentored a team of 3 GIS professionals within the Geomarketing function, guiding data acquisition, retail measurement, and spatial analysis to drive commercial decisions.
- Built predictive analytical models using AI and spatial analysis, and delivered interactive dashboards supporting site-selection and market decisions.
- Implemented automation tools and workflow enhancements, ensuring data integrity and compliance with privacy regulations.

- Developed client relationships and business proposals supporting company growth.

GIS Specialist

Mar 2019 – Mar 2021

Garuda International — Khartoum, Sudan

- Conducted spatial data analysis and site-selection studies, identifying geographic patterns and trends to support strategic and operational decisions.
- Designed interactive dashboards and web apps, automated geoprocessing workflows, and delivered GIS training sessions.
- Produced thematic maps and reports and maintained a structured digital map library.

GIS Analyst — Electric Utility Networks

Apr 2016 – Nov 2018

Engineering & Research International (ERI) — Saudi Arabia

- **Key project: KAIA (King Abdulaziz International Airport) – MEP GIS data conversion.** Led GIS data conversion and migration efforts for major infrastructure delivery.
- **Northern Region electricity network project:** delivered network data digitization, validation, and spatial analysis for regional electric utility infrastructure.
- Performed digitization, editing, topology validation, and attribute-accuracy checks on electricity network data to ensure dataset integrity.
- Conducted spatial and network analysis supporting grid optimization, fault detection, and infrastructure planning.
- Delivered geospatial analysis, data modeling, and GIS-based reporting for electric utility projects, and maintained spatial databases.

Survey Engineer

Dec 2014 – Dec 2015

Sudan Ministry of Interior — Khartoum, Sudan

- Conducted and oversaw land and boundary surveys to establish legal property lines in line with regulations.
- Validated spatial data against historical records and evidence, and compiled survey results into detailed reports with actionable recommendations.

CONSULTING & ADVISORY

Co-Founder — Best Practice Integrated Solutions

Jan 2020 – Present

- Co-founded a consultancy delivering GIS, surveying, and spatial data solutions to public- and private-sector clients; defined service offerings and managed engagements across data acquisition, spatial analysis, and mapping deliverables.

EDUCATION

M.Sc. Geoinformatics — The Future University, Sudan

2019 – 2021

B.A. (Hons) Survey Engineering — Sudan University of Science and Technology

2009 – 2014

LICENSES & CERTIFICATIONS

Professional Licenses

- **Project Management Professional (PMP)®** — Project Management Institute (Apr 2025)
- **MRICS — in progress** — RICS Senior Professional Assessment route (assessment scheduled Nov 2026)
- **RICS APC** — Surveying & Mapping, GIS, Cadastre, Cost Planning, Data Management (2025)
- **Survey Engineer – Specialist** — Saudi Council of Engineers (Apr 2016)
- **MIET** — Member, Institution of Engineering and Technology; Chartered Engineer (CEng) professional review in preparation

Esri Technical Certifications (selected)

- Spatial Data Science — Spatial Analysis & Databases (2023)
- Deep Learning & Object Classification Using ArcGIS Pro (2025)
- Building Geoprocessing Models & Integrating Data in ArcGIS Pro (2025)
- Transforming Data Using ETL Processes — FME & ArcGIS; Managing Raster Data (2025)
- ArcGIS Online Content Sharing, JavaScript Web Apps & Drone2Map (2025)
- Python for Everyone (Esri) • SQL Fundamentals (20+ Esri courses completed)
